HCARE 24 Founder Story

Mobile-OPD (seed idea)

- **2015–2016:** Mother suffered severe health issues → overcrowded, fragmented govt hospitals → observed systemic inefficiencies.
- Built **web-based OPD slip + e-prescription script** (unique patient ID) → dropped (no revenue model).
- **Mother's passing** → seed idea for Hcare24.
- **2017–2020:** Worked in Dubai (Insurance Company) → stability but no satisfaction.
- **Covid-19 (2020–21):** Lost friends & colleagues → realized urgent healthcare gaps.
- **2021–2022:** Returned to India, faced personal health collapse → strengthened belief in **24x7 mobile OPD ecosystem**.
- **2023–2024:** First Hcare24 launch (failed, limited resources) → restarted with structured approach (team struggles).
- **Jan 2025:** Registered **Dwaarpass Innovation** → built prototype: **ATH (Any Time Healthcare) Booth + Hcare24 SaaS platform**.
- **Present:** Full-stack developer, building pitch deck, seeking incubator & funding support.

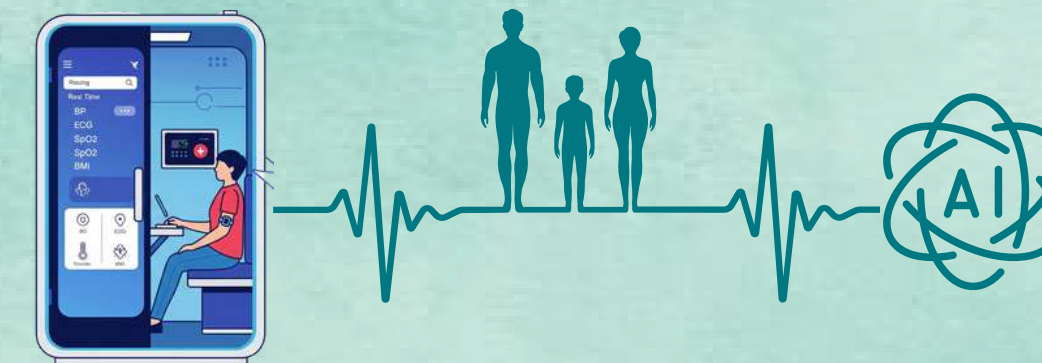

Grant Request – ₹20 Lakh

Why We Need Support

- Deploy pilot ATH booths in Delhi & nearby districts
- Enhance Hcare24 **SaaS** with **AI features**
- Build awareness via community health camps
- Create foundation for a scalable digital hospital **ecosystem**

💡 **Vision:** Ensure no family loses a loved one due to lack of timely healthcare access.

THE PROBLEM

HOSPITAL PAIN POINTS

- Long OPD queues (manual slips, delays)
- No real-time tracking → Patient frustration
- Hospitals run on paper → errors, inefficiency
- Rural areas → no smart infra for diagnostics

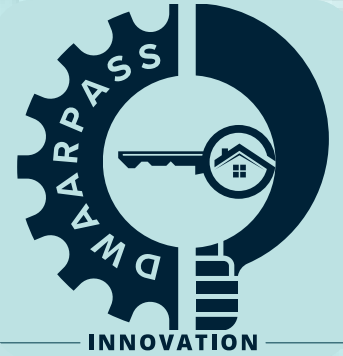

COUNTER PROBLEM

Hcare24

SOLUTION

Mobile **OPD + ATH Booth**

Mobile-first OPD CRM + IoT-powered ATH Health Booths:

Any Time Healthcare

USP

Smarter, faster, and
paperless OPD

Anytime, Anywhere.

Note: Analysis The Red colour is an indication of a Loss, and The Green

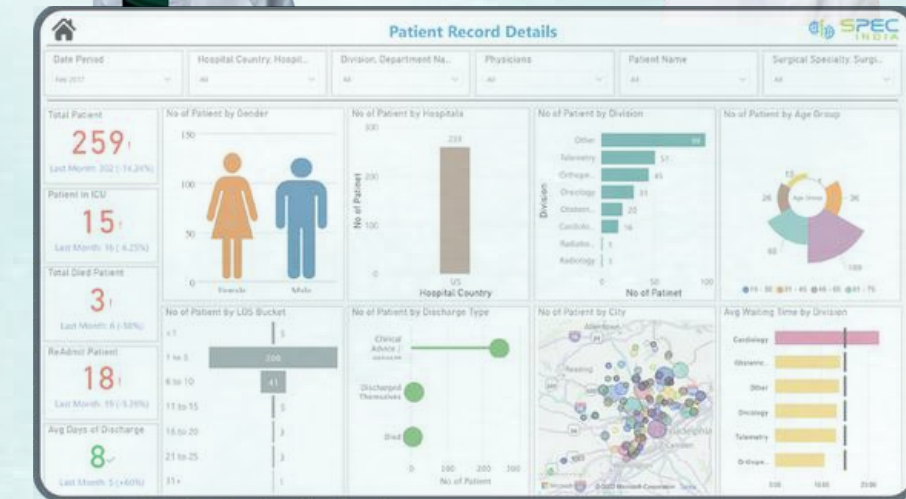

Product Overview

1. Mobile OPD (Web & Android)

- **Online consultation** booking & payments
- QR-based patient entry with **live token tracking**
- UPID-linked **medical history & lab reports**
- Real-time analytics dashboard
- Digital prescriptions with pharmacy integration
- **AI Predictive Care:** early diagnosis alerts, treatment recommendations & follow-up reminders

Live Slip Tracking

2. ATH Booth / Van (Optional Add-on)

Micro Hospital / Lab Booth / PHC

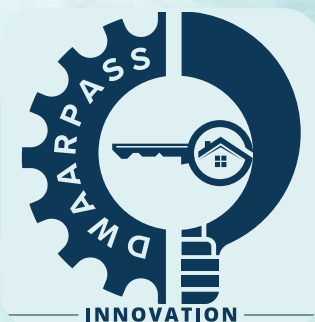

- Portable micro-hospital with diagnostic **IoT devices**
- **Instant vitals & lab tests** (ECG, BP, Temp, SpO₂, BMI, X-ray, etc.)
- **AI-powered health screening** with instant reports
- Tele/**AI doctor consultation** & e-prescriptions
- On-site registration, slip printing & medicine delivery
- **AI Treatment Support:** suggests possible conditions, preventive actions, and lifestyle-based care plans

✓ Key Benefits

Easy to access, Cost-efficient, Time-saving,
Portable & scalable healthcare anywhere, **Proactive health management with AI-driven predictions & treatments**

360° Integrated Apps

Product Ecosystem

Health & Patient Engagement

3. AI Doctor App

- Predictive analytics for early diagnosis
- Quick e-prescriptions & dosage guidance
- Access to patient history & follow-ups

5. AI Patient Reminder & Analysis App

- Smart reminders for medicines, appointments, and vaccinations
- AI alerts for early health risks (BP, sugar, heart)
- Instant doctor connection via teleconsultation & e-prescriptions

7. Pharmacy App

- Prescription-based drug billing
- Inventory and expiry management
- Patient medicine history and refill reminders

4. HCare24 CRM

- Centralized patient history & prescription management
- Integrated platform: **Doctor ↔ Hospital ↔ Pharmacy ↔ Lab ↔ Ambulance**
- AI-driven reminders for medicines, tests, and follow-ups

6. Lab App

- Generate **patient ID-based test reports** for accurate tracking
- Upload and manage **vitals & diagnostic scans** (X-ray, CT, ECG, lab results)
- **Secure, permission-based data sharing** with doctors, hospitals, and patients
- **Real-time notifications** for test results and updates
- Seamless **integration with HCare24 CRM** for centralized patient history

8. AI-Based Ambulance App

- Rapido-style UX for emergency transport
- Mobile-first UI: **location → ambulance type → fare → live tracking**
- Live tracking with fallback logic for nearest available ambulance
- WhatsApp booking for low-bandwidth users
- Transparent fare estimator: base fare + per km charges
- B2B API integration for hospitals, clinics, and insurers

9. AI MindMitra (Add-on Concept)

- India's first **vernacular, low-data, hybrid AI + human mental wellness app**
- **AI-powered journaling & CBT** tools available in multiple Indian languages
- **Live access to trained wellness coaches** via chat or audio
- **Voice-first and offline-friendly design** optimized for low-bandwidth environments
- Provides focused support for **PTSD, women's health, anxiety, and relationship wellness**

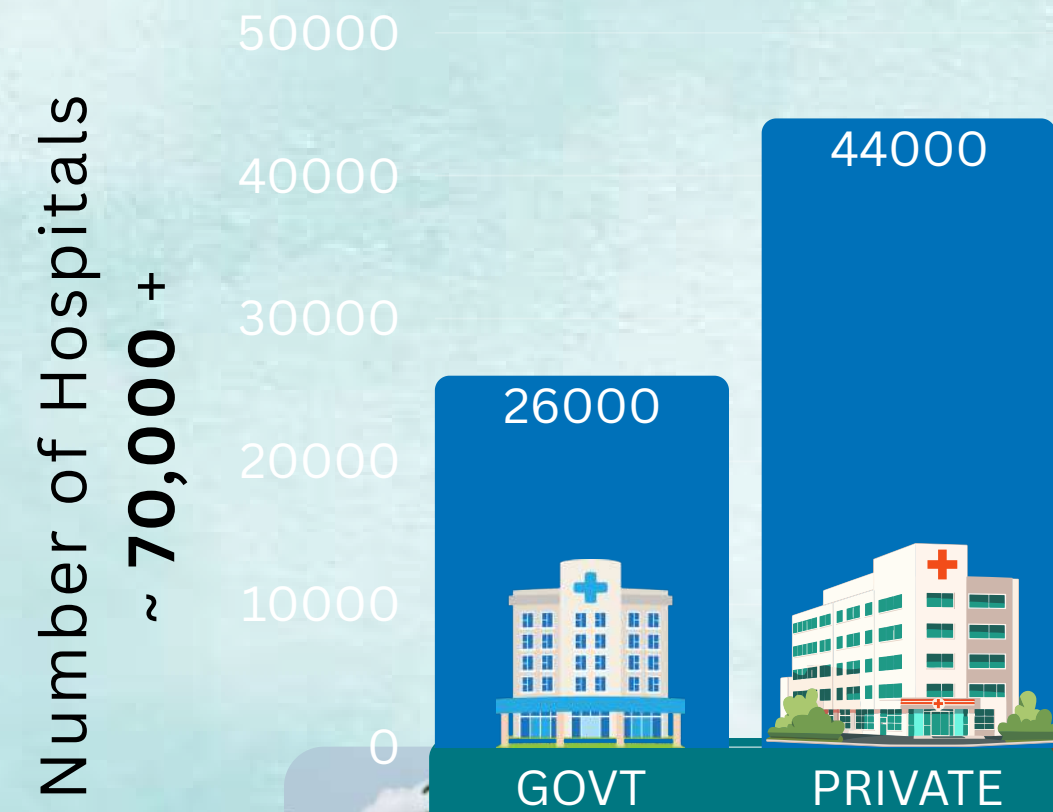

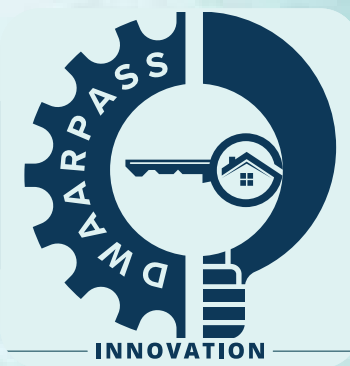

Market Opportunity

₹ 5,000 + Crore

- **Indian TAM:** ₹4,000–5,000 Cr/year
- **5-Year Opportunity:** ₹ 20,000+ Cr (Booth + SaaS + Services)
- **Global Opportunity:** \$10–15 Billion
- **Current Gap:** 70% of India lacks reliable OPD access
- Government spends ₹90,000+ Cr on health digitization

Business Model

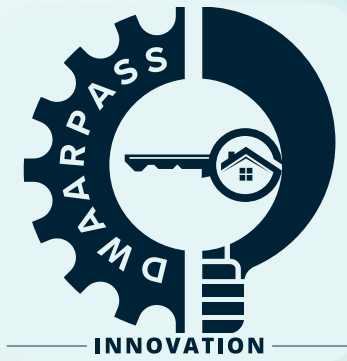

REVENUE STREAMS

- **B2B SaaS CRM** –
 - ₹499 to ₹60,000/month/hospital
- **Franchise Model** –
 - White-label ATH Smart Health Booths
- **Govt/NGO Partnerships** –
 - CSR & public health projects
- **Premium API Access** –
 - AI/IoT integrations for hospitals
- **Add-ons** –
 - Branding, setup, ATH Booth rentals

CORE SERVICES

- **B2C** : Subscription plans for home care, telehealth, diagnostics
- **B2B** : Licensing platform for clinics, hospitals & wellness centers
- **Franchise** :
 - ATH Booths in urban, rural & underserved areas
- **Govt/NGO** :
 - Public-private partnerships for community healthcare

HOW ITS WORKS

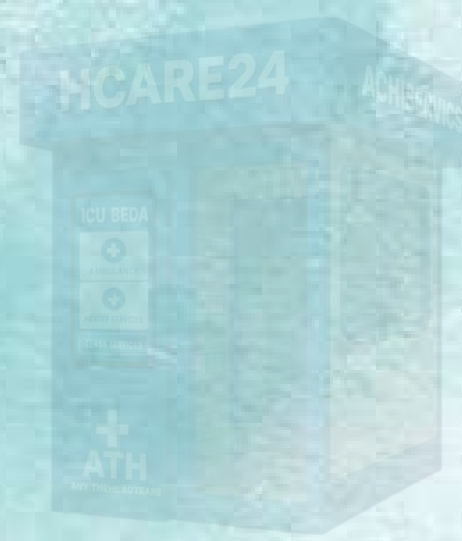

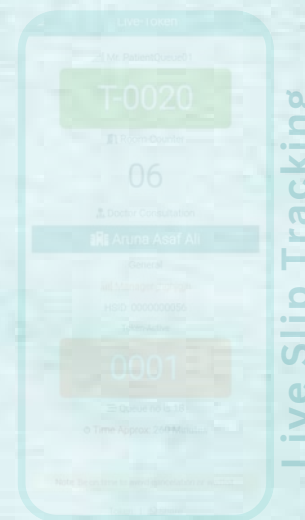

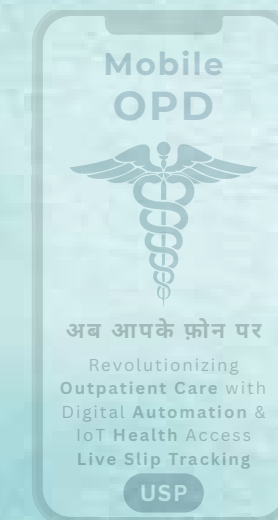

Work Flow Diagram

TRACTION

✓ MVP Ready, Pre-Revenue Stage

- 📍 **Pilots in:** Delhi, Noida, Mumbai, Gurgaon, Kolkata
- 🎯 **Year 1 Goal:** 100+ hospitals, 1,000+ clinics
- Year 2 ARR: ₹2 Crore
- **Break-even:** 20–24 months
- **Roadmap:** 20+ booths, AI diagnostics, 10 states

Why We're Better

Uniqueness(USP)

A Clear Advantage

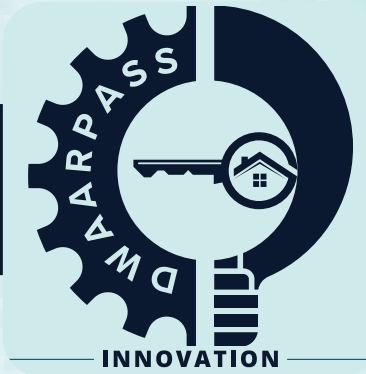

<i>Feature</i>	Hcare24	Practo / Others
FOCUS	Hospital-First	Doctor-First
DOCTOR ASSIGNMENT	Managed via CRM	Direct Bookings
LIVE SLIP TRACKING	✓ Yes	✗ No
OPD QUEUE MANAGEMENT	✓ Dashboard	✗ Not available
UPID + REVISIT HISTORY	✓ Linked	✗ Manual
QR-BASED ENTRY	✓ Included	✗ Not applicable
GPS + TOKEN COLOR SYSTEM	✓ Yes	✗ Limited

Market Gap

- Competitors (Practo, 1mg, mfine, DocOn) = Doctor-first only
- Hospitals, OPDs, PHCs underserved
- Rural access not addressed

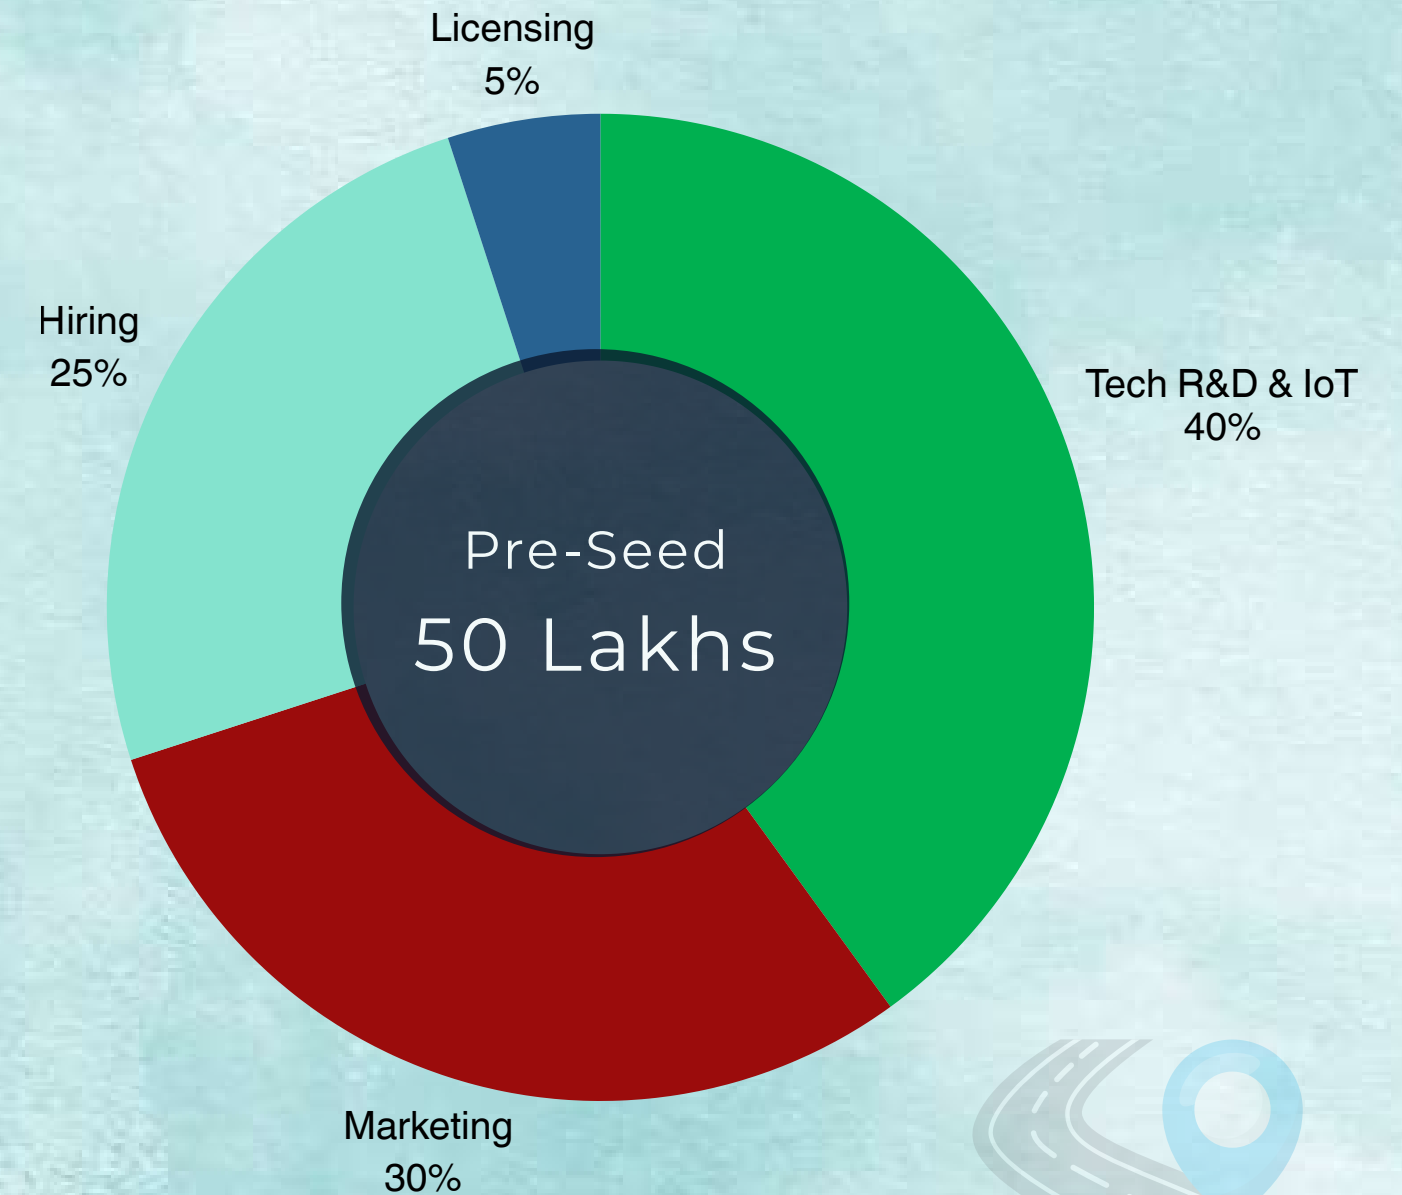

Seed Ask: ₹ 50,00,000

 Use of Funds:

- 40% – Tech R&D (CRM + IoT)
- 30% – Marketing & Franchise Growth
- 25% – Hiring (Medical, Ops, Sales)
- 5% – Compliance & Licensing

HCare24 + ATH Booth = Accessible, Preventive, Scalable Healthcare for All

Thank You

Hcare24

MISSION:

Make 24x7 affordable & accessible healthcare available across public and rural touchpoints

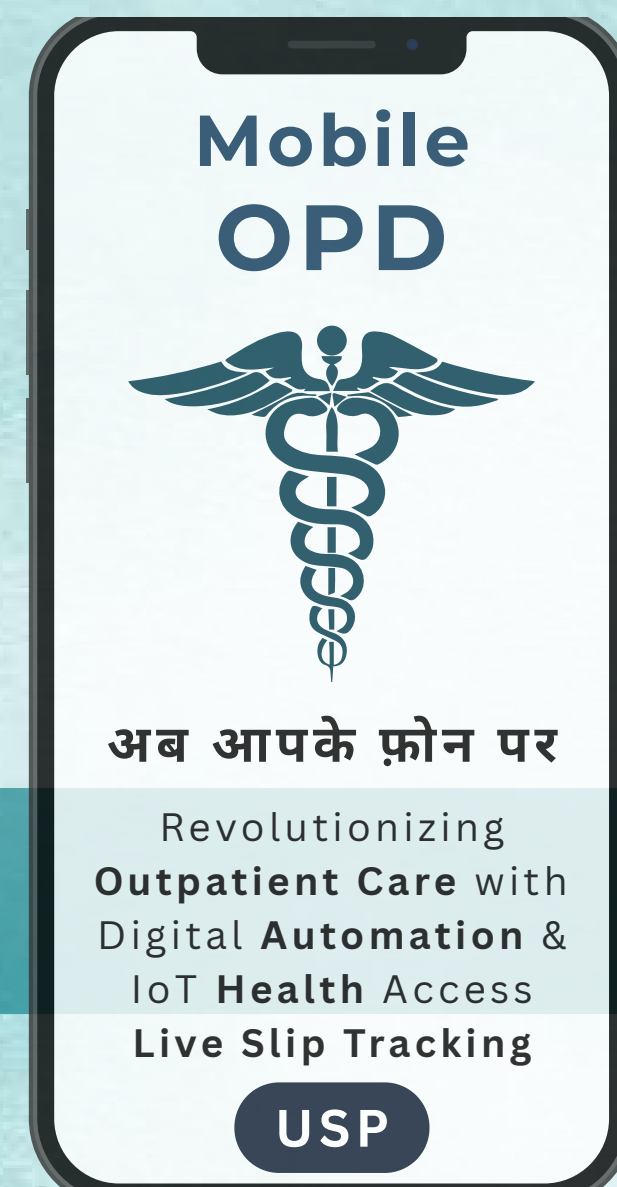

Incubate – Revolutionize – Fast-track

Vision:

To democratize outpatient healthcare access in India by combining AI, automation & IoT – empowering every hospital, clinic, and village with Anytime Healthcare.

Invest, Franchise, Partner: Build bridges, not just devices
